

An aerial photograph of a dark, textured landscape, possibly a forest or a field of low-lying vegetation. The terrain is uneven, with various shades of dark green and black, and some lighter, possibly reflective, areas. The overall appearance is grainy and high-contrast. The text "elemental herbology" is overlaid in the center in a white, serif font.

In our element

We are Elemental Herbology, a natural skincare and body care brand based on the Five Elements of Traditional Chinese Medicine. We are fresh, clean and thrive to create ultimate wellness experiences through unique treatments, innovative products, and our focus on well-being and lifestyle.

five elements

Taking inspiration from traditional Chinese medicine, our products relate to each of the five elements; wood, fire, earth, metal and water. We believe that a balance of all the elements is needed depending on your skin type, environmental factors, lifestyle and the seasons.

WATER

Aligned to Winter, a time to nurture, support, turn inward and be calm. Skin in this element tends to be dry and dehydrated.

our ingredients

Elemental Herbology is 100% free from artificial colours, SLS and mineral oils to ensure your skin is cared for from the inside out. The formulas of creams and cleansers are vegan friendly.

the fragrance

Only pure botanical essential oils have been selected to create the fragrance Neroli & Bergamot. Its intense perfume is perfect to *uplift the mind*. A unique fragrance blended in every formula, provides everyday care for hair and body.
